## 👥 INTERNSHIPS

**Engineer Intern – Larson Engineering, Inc., St. Louis, MO**

May 2019 – August 2019

- Prepared structural design calculations and drawings for prefabricated steel and aluminum buildings including guard booths, enclosures, and more.
- Designed using the latest codes and standards (e.g., IBC, ASCE, AISC, etc.).
- Utilized RISA-3D to model structural systems and analyze static loads.
- Created and revised MathCAD calculation templates for use in the design of aluminum facade structural members and curtain-wall systems per the latest codes and standards.

**Structural Engineer Intern – Great Rivers Greenway, St. Louis, MO**

May 2017 – July 2017

- Performed field visits to pedestrian bridges and structural assets to gather data, record observations, collect measurements, and take photographs.
- Collected and uploaded relevant plans, drawings, and other documents to GIS asset inventory.
- Modified bridge layer in GIS to better organize available data; drafted a user guide for GIS layer.
- Presented summary of findings in an oral presentation and detailed findings in a written report.

**Project Engineer Intern – Concrete Strategies, Inc., St. Louis, MO**

May 2015 – July 2015

- Oversaw site work for a project that included the removal and replacement of concrete roads, sidewalks, and upgrades to handicap-accessible ramps.
- Detailed project objectives and timeline, with assistance of PM, and tracked progress.
- Tracked the amount of removal, grading, and pouring that occurred daily, including the tonnage of rock and yards of concrete.
- Interacted with the public, city inspector, and sub-contractors courteously and professionally.

## 🏢 EMPLOYMENT

**Residence Hall Director – Missouri S&T Residential Life, Rolla, MO**

September 2019 – May 2020, January 2021 - Present

- Supervised, evaluated, and trained a team of student-staff RAs through one-on-one meetings, staff meetings, academic plans, and staff development.
- Oversaw the operations of residence halls with 400 to 700 students.
- Handled conduct and student-of-concern cases; responded to emergency and crisis situations.
- Managed, revised, and implemented a residential curriculum for student development; advised local student hall government.

**Recycling Coordinator at The Community Partnership, Rolla, MO**

June 2018 – September 2019

- Oversaw a textile waste reduction program for a not-for-profit thrift store; responsible for diverting over 45 tons of salvage clothing from the landfill.
- Recruited, trained, and supervised volunteer groups of up to 50 volunteers.
- Processed clothing donations and prepared salvage clothing for baling.
- Coordinated the spending of grant-acquired funds.
